BENEFITS FOR PROFESSIONALS

- + Compact, ergonomic design
- + Tool-free depth adjustment
- + Belt hook for convenient carrying
- + No-Mar Tip – prevents marks on delicate wooden surfaces
- + Dry Fire Lock
- + LED-illuminated control panel
- + No cables, no hoses – complete freedom of movement
- + No gas, no follow-up costs
- + Low maintenance
- + Firing speed of 3 shots per second for efficient operation

DESCRIPTION

The BECK Cordless NC90-40 BC Stapler combines maximum flexibility with powerful cordless performance. Its battery-powered operation enables fast and efficient work without the need for compressors or hoses. With its robust construction and precise 1 9/16" stapling capacity, it is ideally suited for professional timber design, interior finishing, and assembly applications. Easy handling, the flexibility of using different CAS batteries, and a high capacity magazine make the cordless stapler the perfect companion for projects where mobility and speed are key.
